## SPANIARDS PACKING TP.

Habana Brightening-Increase of Crime, However.

HABANA, via KEY WEST, November 31.—The last few days have seen a revival of activity in every quarter. Things appear to take on more definite forms in every branch of military operations. Here at Habana wharves are being built and in they confront each other to- railway connections made. The military camps chosen have begun to be con structed. Government boats and supplies are arriving, and the first instalment of United States troops is expected on Friday. At the custom-house, the archives are being packed hurriedly, preparatory to turning over the building to the American authorities. The best energies of the Spanish now reem bent upon an immediate evacuation of the island.

All this has had a salutary effect upon the general tone of commercial and sofuture for relief from a long season of doubt and stagnation.

PUBLIC HEALTH IMPROVED. With the advent of cooler weather the health of the general public has improved. No new cases of yellow-fever among for-eigners have been recorded, and the situ-ation can be said to be visibly better.

There are, however, two discordant notes—the increase of crime and the continuance of official corruption. The newly-constituted police force, armed with machetes and rifles, is totally inadequate to cope with the criminal classes, whose ranks are daily swollen by the return of deported prisoners from the penal Co nies. It makes a very poor substitute for the disbanded Orden Publico. The alarm-ing increase in vice and crime renders it ing increase in vice and crime renders it unsafe to walk the streets unarmel or unprotected after nightfall. The police re-ports show scores of "bool-ups," mur-ders, burgiaries, and highway robberies, ALL THE DETAILS ARRANGED.

Managers Parrish, of Virginia, and
Kura of North Catelina, had a long conference at the Jefferson last night and

FOREIGN CAPITAL FOR VIRGINIA. I have authentic information to the effect that August Belmont, James R. Keene, W. C. Whitney, and other wealthy gentlemen who are interested in horses, are considering the purchase of stock-farms in Virginia. It is suggested that owners of such property should appre-clate this tip, and instead of asking big prices, make concessions which will result in the location of the proposed stock-farms in Virginia.
